

CyBlock for ISA/TMG

Deny or allow access to Web sites that you specify.

CyBlock for ISA/TMG is a precision Web filter that can block or allow access to any Web site by employee, department or enterprise. Designed specifically to support Microsoft ISA/TMG, it also provides IT, HR and management with a variety of actionable employee Web-usage reports. All reports can easily be configured to show as much or as little data as desired, and several can automatically flag Web abuse in accordance with your own usage policy.

Visits By Classification

Classification Name	Download Time	Visits	%	0	26,469	52,939
Acceptable	6:03:03.10	52,939	47%			52,939
Unacceptable	5:16:55.20	49,282	44%			49,282

- Distinguishes real user activity from erroneous hits
- Web-use reports are detailed, accurate and actionable

Administrative Features

- Browser interface allows for remote administration
- Logfile Manager updates and displays logfile status
- Data Manager compresses logfile data for faster reporting
- Data Manager lets you export Web-use data to other application
- Access Accounts allow other personnel to run reports

Technical Advantages

- Integrates easily with ISA or TMG server in single or array configuration
- Easy to install, integrate, set-up and configure
- SSL option for maximum security
- Free technical support and OtherWise™ site categorization service
- Server-based, requiring no user/client installation
- Import feature supports one or more Active Directories
- Supports multiple logfile locations

Compatibility

Proxy Servers: Forefront TMG, Microsoft ISA Server 2006, 2004 and Microsoft Small Business Server Premium

Browsers: Microsoft Internet Explorer 6.0 or higher, Netscape 7.0 or higher, and Mozilla Firefox.

Pricing

Wavecrest's CyBlock solutions offer the industry's best value for Internet filtering and monitoring. CyBlock ISA is a licensed, subscription-based software product. Pricing is tiered, based on the number of people ("non-concurrent users") to be monitored. In general, the price-per-user decreases as the number of users goes up.

Every CyBlock ISA purchase includes:

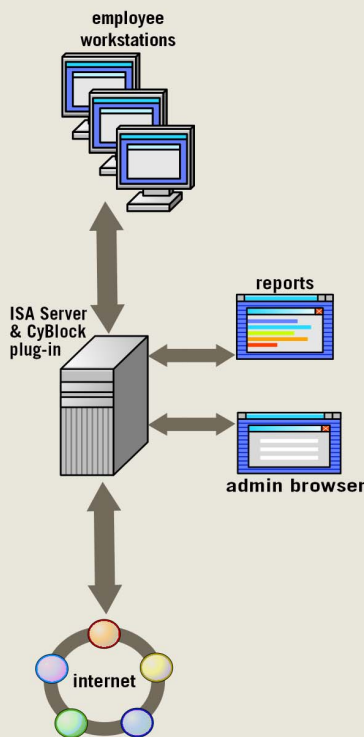

- Free technical support
- Daily URL list updates
- Free product upgrades

Discount pricing is available for government agencies, educational institutions, non-profit organizations, and resellers. For more information, contact sales at 321-953-5351, ext. 3.

Wavecrest Computing

Wavecrest Computing has provided business and government clients with reliable, accurate Web use management software since 1996. IT specialists, HR professionals and business managers trust Wavecrest's Cyfin® and CyBlock® products to manage employee Internet usage - reducing liability risks, improving productivity, saving bandwidth and controlling costs.

Wavecrest has over 3,000 clients worldwide, including Procter & Gamble, General Electric, Hewlett Packard, Bayer, British Telecom, Edward Jones, the US Army and a growing list of global enterprises and government agencies. Wavecrest Computing is a GSA Schedule Contractor. For more information on our company, products and partners, visit www.wavecrest.net.
